Re: Aloft Media, LLC Patent Portfolio

Notice of Possible Patent Infringement and Offer of License

Dear Mr. Belda,

Our company, Aloft Media, LLC ("Aloft") is the owner of full right title and interest in a portfolio of patents that we believe may be relevant to your business. Our active patent portfolio includes over fifteen issued U.S. Patents and twelve applications<sup>1</sup>.

It has come to our attention that your company may be presently practicing, and potentially infringing, at least one of the patented inventions. In disclosure of the basis for our conclusions, and for your examination and comment, I am attaching to this letter the enclosed Claim Chart for your review.<sup>2</sup> This Claim Chart is not exhaustive of your possible infringements, but rather they are exemplary of patent claims we believe may be presently infringed, based on our current due diligence research.

We urge you to consult with your counsel and technical staff regarding the correctness of our analysis and conclusions. These claim charts are based on our independent investigations based on publicly accessible information. We are very open to receive and discuss with you any additional information you may believe to be relevant.

If you have evidence or arguments that your company's practices do not fall within any of the patent portfolio's claims, or if you believe your products or technology is already licensed through Aloft's existing business relationships, please let us know. We consider this letter as the beginning of a two-way exchange of information – a notice of our conclusions, but also an invitation to a discussion with you if you believe our conclusions are inaccurate.

We are contacting and offering licenses to you and other companies like yours that we believe may be infringing one or more claims of the patents in the portfolio. We are writing to you at this time to initiate a mutually beneficial and amicable business discussion. Some of these patents have already been licensed to over 520 large international corporations, and we trust you will want to join them.

<sup>&</sup>lt;sup>1</sup>A complete listing of Aloft Media, LLC's patents and applications, including provisional and abandoned applications and expired patents, is attached to this letter as Exhibit 1.

<sup>&</sup>lt;sup>2</sup>The enclosed Claim Charts are designated as **CONFIDENTIAL** pursuant to Federal Rule of Evidence 408 and **PRIVILEGED** – all Privileges are asserted including Attorney Client and Attorney Work Product Privileges. The Claim Charts are **DRAFTS ONLY**, based on the best available information and reasonable conclusions drawn therefrom, and the Claim Charts and are subject to revision at any time.

Even if you are not presently practicing any of the inventions in the portfolio, we believe you will find them to be useful and valuable inventions and that can keep you competitive with other companies in your field. However, if you agree with our conclusion (of the relevancy of these patent assets to your company), then this is an opportunity to amicably resolve any past infringement and clear the path for your future, properly licensed, development. Finally, any patent in the portfolio that you are not presently practicing are offered to you for licensing now, such that you will have confidence that your future technology will not necessitate the negotiation of additional licenses. Aloft continues to develop its portfolio through continued prosecution and exploring potential additional IP acquisitions.

George Street Partners ("GSP") is our authorized licensing agent. Todd Schmidt, an agent of GSP, will be contacting you within the next few days regarding this licensing opportunity. Aloft Media, LLC, through GSP, is presently willing discuss licensing terms at preferential rates for your prompt resolution of this matter, thereby avoiding costly legal entanglements for both sides. If you have any immediate questions, please contact Todd Schmidt directly. His contact information is below.
